# PROJECT CARGO NETWORK MONTHLY NEWS

## ABOUT PCN

Established in 2010, the Project Cargo Network (PCN) brings together professionals in heavy lift and project cargo logistics through a structured global network governed by strict membership rules. PCN includes over 350 companies across more than 110 countries and operates in accordance with ISO 9001 and ISO 14001 standards. The network consistently maintains a high annual renewal rate of around 95%.

PCN also offers an online Heavy Lift training program that has been used by organisations such as DHL, Kuehne+Nagel, Bertling Logistics, DB Schenker, and DSV Panalpina, along with more than 1,000 worldwide companies. In 2025, PCN will mark its 15th Anniversary with a conference in London, scheduled for 26–28 October 2025, with record attendance anticipated.

For more information about membership, contact [sam@projectcargonetwork.com](mailto:sam@projectcargonetwork.com).

Any views expressed are those of the individual quoted, and not necessarily those of the publisher. The publisher can accept no responsibility for any errors or omissions made, but will endeavour to amend any, that are brought to our attention, in a future issue.

Welcome to our monthly eMagazine, an official PCN publication which includes articles on Member’s projects, the latest companies to join, reminders of membership tools and official updates.

Distributed to both our internal readership of 10,000+ staff worldwide and also accessible to the 5000+ visitors per month to our website. We also invite external companies to subscribe and currently over 500 industry executives engaged in energy, construction, shipping, and ancillary industries have asked to regularly receive a copy. Please feel free to subscribe and each issue will be delivered straight to your inbox.

To see the latest news, please see the **News section** of our website.

We are delighted by our continued strong growth – scan the QR code to see our impressive association which has a global reach of over 110 countries. However, we are more impressed with the amount of business and projects that our members collaborate on. It is why we exist!

Head to **page 26** for details on our exciting 15th Anniversary Celebration & Conference in London!

Enjoy this issue.

Rachel Crawford FCILT  
PCN President/C.E.O.

The PCN Team  
From left: Tom, Judith, George,  
Rachel, Sam, Wendy

**Rachel is supported at the PCN Head Office by a strong group of talented individuals drawn from a variety of transport and media backgrounds, all of whom very much contribute to the success of our organisations.**

### MEMBER SUPPORT

Judith manages the network on a day-to-day basis, assisted by Wendy and Tom. Together they ensure that all systems are up-to-date and are the first stop for any Member queries. In addition, Wendy secures collaborations with the **world’s top industry exhibitions**.

### RECRUITMENT

Sam manages membership recruitment, selecting companies who will become active Members. His current aim is to expand our global coverage filling our **vacant territories** and emerging markets. Sam also runs our **News Desk**, publishing online articles and managing the company’s **LinkedIn** account.

### PUBLICATIONS

George is responsible for the production of our colourful **eMagazines** (packed with Members news!) and all brochures, marketing and sales material available to Members.

# Royal Cargo Transport Fabricated Steel Modules to Australia

**R**oyal Cargo are excited to announce their successful transportation of fabricated steel modules from Phu My, Vietnam to Fremantle, Australia.

The consignment included **23 packages** and a total cargo volume of **1,778 cbm**, consisting of a mixer settler module and a knit coalescing filter.

Royal Cargo received and handled the cargoes from a factory before securely moving it to **Ba Son Port** in Phu My.

The company encountered many difficulties due to **challenging weather conditions** and an onslaught of rain.

With the destination of the cargo in Australia, Royal Cargo were required to clean the packages before loading them on-board their designated vessel.

Despite this, the Royal Cargo project operations team **overcame all obstacles** with meticulous coordination, planning and preparation.

The transport was completed to the quayside of the loading port **smoothly and efficiently**, reflecting the talents of Royal Cargo in managing **complex cargo** and **large-scale projects**.

# Europe Cargo Move Kalmar Hybrid Straddle Carriers to Antwerp

**E**urope Cargo are pleased to share another completed project involving hybrid straddle carriers at Deurganck Dock in the Port of Antwerp.

In a single, well-orchestrated shift, the company safely discharged **ten units** of Kalmar hybrid straddle carriers from the **M/V FWN ATLANTIC**.

Thanks to the **seamless teamwork** of all parties involved, this operation finished **ahead of schedule**.

*"A shorter port stay translates to lower vessel costs, our all-in-one solutions (lifting plans, surveys, on-site supervision) simplifies the process for shippers & receivers."*

*Europe Cargo is an international freight forwarding company that was established in 1992 in Antwerp as a complete service-provider towards local companies being involved in shipping, logistics & transport. The founding of our company was a result of the desire to service the Belgian market and provide a better and faster service towards our customers.*

# Protranser Deliver Transformers to Singapore & Malaysia

**P**rotranser are glad to share a recent case they completed involving 100+ ton transformers, which they moved from China to Singapore and Malaysia.

The company's operations team oversaw the transport of three sets of transformers, each weighing over 100 tons.

The dimensions of the transformers featured one set at **104 tons**, measuring **10.2 (L) x 3.55 (W) x 4.40 (H) meters**, with the other two sets weighing **110 tons**, and with measurements of **7.24 (L) x 3.24 (W) x 4.06 (H) meters**.

Protranser covered a wide scope of work, including:

- Receiving of cargo from factory in Wuhan
- Delivery to Shanghai port
- Customs clearance and port service
- Chartering service for breakbulk vessel

This shipment was **completed safely & securely** thanks to the diligence of all teams involved.

*On the road; for you, with you.*

# 3p Logistics & Noatum Complete Heavy Lift Milestone

**3p Logistics** have cooperated with Noatum Project Cargo to successfully discharge a Siemens power transformer at the Port of Klaipeda, Lithuania.

This transformer weighed in at **103.5 metric tons** (228,178 lbs), making it the **heaviest single project cargo** ever handled in the **20-year history** of 3p Logistics Industrial Projects.

The unit arrived from **China** by sea, and marks the first stage of a delivery to the **Vestas wind farm** in **Akmene**, where the transformer was unloaded using a **500-ton Liebherr** crane.

*"It's been a long road. Our first touchpoint with the customer was in September 2023. That's almost 2 years of planning, permits, road surveys, and coordination."*

3p Logistics also made **technical conclusions** on bridges across the route, before and after the trip, to **ensure the safety** of Lithuania's infrastructure.

*"This is a signal to the market that 3PL Group is ready and able to take on the kind of projects that only a handful of companies worldwide can deliver."*

**Ilya Goncharov**, Head of Industrial Projects at 3PL, gives huge kudos to his team and their partners for achieving such a milestone.

# Lysander Shipping Welcome the Challenge of Complex Projects

**We** are pleased to approve Lysander Shipping as new members in the United Kingdom. They are already trusted members in Denmark and we are delighted to welcome their UK team to PCN. With offices in London and Liverpool, the company are BIFA registered and AEO certified.

**Brian Kofoed** (CEO & Managing Director):

*“Lysander Shipping is a **well-established project forwarder** with dependability, honesty and customer service at the heart of everything we do. Our professional team treat every project with the utmost care and attention alongside **expert knowledge, experience, and market awareness**.*

*In our **25+ year history**, we have had the honour of being a strong strategic shipping and transport partner with some of the largest names in the construction, oil & gas, renewable energy, civil engineering, shipbuilding & offshore, plant machinery, and manufacturing industries, while building a trustworthy reputation with shipping lines and chartering services alike. We pride ourselves on offering reliable and trusted services with **creative, tailor-made solutions**.*

*Our **diverse range of skills and services** are what sets us apart. We recognise and understand the complexities surrounding project forwarding, chartering, and handling OOG and heavy lift cargo, which is why we extensively plan every detail and provide the **personal touch** at every stage. We do not shy away from the big jobs and welcome the challenge of finding the right solution for each project’s requirements.*

*We are **routinely exceptional** in what we do.”*

Their **impressive portfolio** of successful projects and complex shipments is what comes from a 25+ year history in project forwarding. The Lysander Shipping team are always ready to take on a project of any size.

**Click here** for the latest news from the company with some of their recent projects outlined below.

- **24 cable reels**, measuring 1,426cbm and weighing a total of over 800tn, from the Far East to UK. The cargo required specialist handling and storage at Liverpool Port, followed by delivery to North Wales after a thorough road survey. The operations ran smoothly and successfully with all the reels delivered on time to the delight of the customer.
- The safe discharge and storage of **66 battery units** at Portsmouth Port. All units were safely discharged from the vessel and transported to storage under the supervision and guidance of Lysander staff. They offered Portsmouth as the most suitable port in the area for the project and all operations worked to perfection to the complete satisfaction of the client.
- **Two dumper trucks** (each at 6.0 x 2.8 x 3.5m / 8,000kg) shipped to Australia. Lysander collected and delivered the trucks to the loading port to meet the RORO vessel. Due to the stringent quarantine requirements in Australia, they also arranged the cleaning of the units prior to shipment.
- **A hydraulic drill** (2.55 x 10.80 x 3.55m / 28tn) plus spare parts shipped to Shanghai via RORO service. Lysander arranged the collection with a lowbed trailer using ramps for the loading and discharge at the port.

# Royal Logistics Achieve Milestones in First Half of 2025

**P**T. Royal Cargo Logistics, our members in Indonesia, are pleased to report on the successful completion of two major projects.

Among these key accomplishments is the completion of the **Jetty Extension Project**, including the construction of additional structures for Dolphin Jetty Unit 1 at **Tarahan Port**.

This technically demanding assignment involved the transport of **63 large steel pipes** - each 48 meters in length and 1 meter in diameter - from **Ciwandan Port** to a private jetty at Tarahan.

The scope of work included a **2-month dedicated charter** of a **230-foot barge** for pipe loading at Ciwanda, and a **180-foot barge** for crane positioning at the site in Tarahan.

*“Operations were carried out smoothly, strictly adhering to timelines and safety protocols throughout each phase.”*

Building on this momentum, the team recently concluded the **domestic transport** and installation of a **power transformer** & its accessories.

This involved the specialised handling and movement of the transformer from **Cikarang, West Java**, to **Baros Substation** in Serang.

The technical scope included heavylift transport, installation, vacuum, oil purification, and site acceptance testing (SAT).

*These back-to-back projects reflect PT. Royal Cargo Logistics Indonesia’s growing presence in project transportation logistics.*

## Khimji Ramdas Deliver for Green Ammonia Project in Oman

**K**himji Ramdas Shipping (KRS) are pleased to report on their recent delivery of oversized capital goods for the Green Hydrogen & Ammonia facility in Duqm, Oman.

This shipment comprised of **14 packages**, with one of the units weighing **120 metric tons**.

The key to success was **meticulous planning** and execution, enabling trailers to be positioned under hook ahead of vessel arrival, facilitating a **swift discharge** and quicker vessel turnaround.

The oversized cargo was then moved to the port yard for customs inspection using specialised trailers, with transits scheduled during the night **under police escort**, ensuring public safety and traffic compliance.

Khimji Ramdas coordinated closely with port & customs authorities to secure the **necessary permissions** for delivery to the client's facility at the **Duqm Free Zone**.

Additionally, a **comprehensive route survey** was completed before vessel arrival, and detailed plans for transportation and cargo unloading were shared and implemented in coordination with all stakeholders.

Throughout the operation, KRS maintained strict adherence to **health, safety** and **environmental standards**.

*"This successful execution again underlines KRS's reputation as one of the most reliable logistics partner in Oman's growing renewable energy sector."*

## Go Gauge Logistics Complete Transshipments in Singapore

**G**o Gauge Logistics are glad to share their success in transshipments, most recently from Singapore to Chittagong, Bangladesh.

*"When you think of OOG & heavy lift transshipments in Singapore, think 'Go Gauge Logistics', your go-to partner in Asia's key cargo hub."*

The company recently pulled off a smooth **RO/RO transshipment** from Singapore to Bangladesh, involving the movement of **over-dimensional cargo** (15.0 x 4.20 meters).

This cargo included self-propelled and towable units.

Here's a breakdown of what Go Gauge delivered:

- **Temporary Import Permit (TIP) Arrangement**
- **Terminal Transfer Coordination (TPT to PPAT)**
- **RO/RO Operations with Dedicated On-Site Supervision**
- **Freight Management, Customs & Port Liaison**

*"Whether it's project cargo, out-of-gauge, or a complex transshipment, Go Gauge Projects is ideally positioned to support you with custom logistics solutions."*

# Europe Cargo Transport 2022 Formula E Model to Los Angeles

**E**urope Cargo are excited to share an interesting transport they completed involving a high-performance race car!

Europe Cargo recently arranged the transport of a **DOME F110E** from **Pelt, Belgium** to **Los Angeles, USA**.

This high-performance race car was received at the company's CFS, where their operations team managed the full process:

- Warehouse intake
- Stuffing
- Lashing
- Securing

The car was shipped in a 20DV container via the **Port of Antwerp**, with every step executed with precision & care.

*"At Europe Cargo, we take pride in delivering tailored logistics solutions for even the most exclusive and sensitive cargo."*

# Timeline Logistics Move Oversize Cargo from Poland to Peru

**T**imeline Logistics Solutions are pleased to report on a recent delivery they completed involving oversized cargo from Poland to Peru.

The cargo consisted of a **terminal tractor** which was received at **Callao Port** in Peru.

Arriving by ocean from **Gdańsk, Poland**, the tractor was over dimensions with measurements of **4.00 meters** high and **2.56 meters** wide, and a weight of **15.7 tons**.

A few weeks before operations commenced, the bridge that joins the road from **Lima to Chancay** collapsed.

This led the Peruvian Civil Defense Institution to quickly build a temporary bridge, allowing transit.

Timeline Logistics conducted a **thorough route survey** to ensure their out-of-gauge cargo would be able to resume travel securely.

Additionally, the company managed port handling, loading, and inland transport across **72.4 kilometres**.

*"Despite the challenges faced, the cargo arrived on-time and the client was satisfied with our service."*

# A History of Expert Project Cargo Solutions at Burmester & Stüve

**Burmester & Stüve Navegação are new members in Portugal! They come recommended by several PCN members as reliable partners with powerful project cargo knowledge and local expertise. The company is a part of the Perez y Cia Group, who are PCN members in Spain.**

They offer complete project cargo and multimodal special transport solutions as well as industrial logistics, chartering, port

operations, port agency & husbandry, surveys & studies and project management.

**Tiago Silvério** (Project Cargo Sales Manager) comments; "After seeking a strong and reputable network for project cargo, PCN came highly recommended. The feedback we received highlighted the network's reliability, professionalism, and member support. Additionally, as we are part of Perez y Cia Group who are already a member of PCN in Spain, this has reinforced our decision to pursue membership and expand our presence within the group."

*"Burmester & Stüve has been established in Portugal for more than 125 years. We have coped with the profound changes that have shaped the maritime industry, without compromising our business philosophy and corporate identity, which are both key in our ongoing success."*

*"**Extensive experience** in the Portuguese market and a **flexible approach to complex requirements** shape our business strategy. We strive to provide value added logistics solutions and be a reliable partner in project cargo handling."*

*Our professional project cargo team offers **tailor-made and multimodal solutions**. Our diverse portfolio of handling project cargo with extreme weight or unusual dimensions has been built up over many years of activity, with a pioneer track record in the transport and logistics of components for the assembly of wind turbines and wind farms in Portugal. This has resulted in a partnership with one of the largest consortiums for that purpose.*

*We are also specialists in providing complete solutions for shipping, transport, and assembly in emerging countries. Our contribution and technical knowhow focuses on the chartering of vessels and port handling operations. The scope of services also includes the establishment of transport paths, selection of suitable sea ports and establishment of vessel stowage plans."*

A recent project handled by Burmester & Stüve involved the loading of wind turbine blades at the Port of Sines in Portugal, with a final destination of Vietnam. The oversized, high-value, renewable energy components required specialised handling and extendable trailers were used for transport from storage to the quay alongside the vessel before careful loading.

The scope of services provided by Burmester & Stüve Navegação included:

- Complete coordination of inland transport from storage to alongside vessel
- Supervision & coordination of port handling and vessel loading operations
- Coordination of lashing, securing, & welding services
- Operational support to both shipper & owners
- Port agency services for vessel
- Issuance of export customs clearance

The highlights of the project included the use of lifting frames for blade positioning, night-time loading requiring synchronised efforts between crane operators, port handlers, & transport teams, and the agency attendance & close coordination with port authorities ensuring safety & efficiency.

*"Burmester & Stüve Navegação is a leading expert in project cargo solutions, with a track record of decades of continuous operations in various Portuguese ports, supported by an excellent local network and operational expertise."*

## Europe Cargo Handle Passenger Catamaran Transport

**E**urope Cargo are glad to report that they have recently handled the transport of the passenger catamaran: 'San Pawl'.

The company's operations team coordinated the part charter and safe loading of San Pawl in **Valletta, Malta** - with its final destination in **Guernsey**.

Using the cranes on their chosen vessel, Europe Cargo expertly lifted the catamaran and secured it for **sea transport**.

*"The shipment was completed with precision and teamwork, a true showcase of what Europe Cargo does best."*

These types of projects highlight Europe Cargo's strength in handling complex, oversized cargo with care and efficiency.

*Europe Cargo is an international freight forwarding company that was established in 1992 in Antwerp as a complete service-provider towards local companies being involved in shipping, logistics & transport.*

## Protraner Provide Loading Surveys for Wind Blades Transport

**P**rotraner recently provided loading survey services for cargo to be transported from Nantong, China to Germany.

This shipment involved eight sets of **72-meter wind blades**, where Protraner's staff attended a pre-shipping meeting, inspected the goods before loading, and reported directly to their client.

The company provided **real-time updates** on the loading progress, 24 hours a day, ensuring **transparent communication** throughout the operation.

*"On the road. For you. With you."*

*Protraner currently stand strong at over 100 professional experts in 11 regional offices throughout China, offering flexible solutions with value-added services and optimising the various modes of transportation. Over the years, Protraner have established a good cooperative relationship with local terminals, carriers and truckers.*

## NTG Air & Ocean Complete Several Key Projects

**N**TG Air & Ocean are glad to share some of their milestone projects during the previous year, involving break bulk shipments and flat rack transports.

The first project mentioned by NTG involved a **Brunvoll propulsion system**, which was shipped directly to the yard.

A second project involved **autonomous submarine transports** for **Kongsberg Discovery**, requiring careful handling due to their specialised nature.

*"We also managed a large break bulk shipment of oil pipes, destined for coating, demonstrating our capability to handle oversized and sensitive cargo efficiently."*

The company also supported **Equinor** by transporting **stator and rotor engines** for gas pipelines to Europe. This operation involved both RO/RO shipping and a specially built truck to accommodate the **unique requirements** of the equipment.

Additionally, NTG successfully completed several shipments using flat rack containers on deepsea routes.

# Marinetrans Complete Transportation of Heavy Heater Module

**M**arinetrans was responsible for the planning and execution of a major transport operation involving a 280-ton water heater module.

The unit was moved from a private yard in **Dubai** and successfully delivered to a shipyard, where it was lifted onboard a vessel.

The scope of work included redesigning the base of the module to allow for two modes of transport: either by SPMTs or lifting.

This flexibility was essential, as the project's **tight timeline and high urgency** meant Marinetrans could not rely on a limited selection of available barges or vessels.

The final load-out was completed using **SPMTs** to move the module to the quayside, where it was lifted onto the vessel using heavy-lift vessel cranes.

At short notice, the grillage design was modified to accommodate **last-minute changes** to the module's footprint.

The operation was completed **without any delays or technical issues**. The module was delivered to the shipyard ahead of schedule and within the original budget.

Through innovative engineering and strategic planning, Marinetrans achieved nearly **30% cost savings** compared to the initial budget.

These savings were ultimately passed on to their loyal, long-term client.

*"We're proud to have delivered a seamless and efficient solution under pressing circumstances - meeting urgency with flexibility and technical excellence."*

# Royal Cargo Deliver Oversized Exhaust System to Ireland

**R**oyal Cargo is proud to announce the successful transportation of exhaust system components from **Dung Quat, Vietnam to Greenore, Ireland**.

The shipment consisted of **65 packages**, with a total gross weight of **715 tons** and a total volume of **5,547 cbm**.

The cargo included **steel components** of various shapes and oversized dimensions, with widths ranging from **4.5 m to 5.4 m** and heights reaching **up to 5.1 m**.

The team received and handled the structural blocks directly from the factory.

Transporting the oversized inlet ducts presented **significant challenges** during both inland movement and stowage in the vessel's hold.

Thanks to the **hard work and dedication** of Royal Cargo's team, the cargo was safely delivered to the quayside.

Loading and lashing operations were completed in just two days of **24/24 continuous execution**, reflecting Royal Cargo's **strong capabilities** in handling complex cargo, tight schedules, and large-scale project demands.

*"This project showcases our ability to adapt, plan, and execute with precision - even under challenging conditions."*

# Infreight Ship Airport Function Truck from Belgium to Singapore

**Infreight, our members from Singapore, have successfully handled the transport of a specialised airport function truck from Belgium.**

Managed as a **door-to-port service**, the operation covered every stage - from collection at origin to securing the vehicle onboard a vessel.

Due to the truck's **oversized dimensions**, overlength components were dismantled to allow safe stowage on a **40' flat rack** container.

The project required a combination of technical planning and on-ground execution.

This included **pre-shipment route surveys**, lifting strategies, and tailored securing methods.

Heavy-duty **lashing and high-tension strapping** ensured the unit remained firmly in place throughout the journey.

Close coordination with port authorities and customs officials helped streamline the process and avoid delays, with all operations carried out according to strict safety protocols.

*"Transporting specialist cargo like this requires more than logistics; it demands care, flexibility, and expertise from start to finish."*

ship.energy

## Marine Energy Transition Forum

**15 September 2025 | London**

The Marine Energy Transition Forum will consider how the industry is faring in taking the next steps towards the commercialisation of early initiatives in shipping's energy transition. Featuring stakeholders from across the shipping and port sectors, METF 2025 will take a close look at how new and existing businesses can 'survive and thrive' in a competitive decarbonisation commercial environment.

**REGISTER NOW**

**#METF25**

## Front Shipping Complete Part-Charter of Empty Reels in Norway

**F**ront Shipping has recently arranged the transport of empty reels on a part-charter vessel in Norway.

The complete operation included loading, seafastening, and discharge, with each reel measured to have a diameter of **9.2 metres** and a weight of **50 tonnes**.

This cargo was received from **Halden Port** before onward delivery to **Rognan Port** in Norway.

*"Our clients benefit from our global reach and continuous dialogue with vessel owners."*

*Front Shipping specialises in chartering general cargo vessels of all sizes and gear requirements, as well as heavy lift vessels, floating cranes, mobile cranes, barges, and pontoons worldwide.*

## Demanko Deliver Oversized Transformer to U.S. Power Plant

**D**emanko are glad to share the successful transport of a **55,000 lb transformer** to a newly constructed power plant in the **United States**.

Demanko's team **arrived before sunrise**, ensuring all equipment was in place and that the cargo was **safely and smoothly loaded** onto the transport vehicle.

Convoy escorts were arranged to manage the **oversized dimensions** and comply with regulatory requirements.

The company remained actively involved throughout the journey, **coordinating every stage of the move** and assisting with final positioning at the destination.

Their hands-on approach and dedication helped ensure a **safe, timely, and satisfactory delivery** for all parties involved.

*"With Demanko you have a team that goes the extra mile for you."*

# Envio Global Logistics are Passionate about Project Cargo

**We are pleased to report Envio Global Logistics are new members in Sri Lanka.**

Based in **Colombo** and certified by SLFFA, they come recommended by PCN members as a professional and responsive company. Their team are passionate about project cargo with **specialist regional expertise**.

**Thilina Siriwardena (CEO)** comments; “The Envio Global Logistics team are experienced logistics experts, identifying the best **customised solutions** to fit each project. With fast and professional shipping services, we cover all requirements from planning to delivery.”

A recently completed project handled by Envio Global Logistics involved the movement of a military truck plus parts to the UK for testing purposes. Due to the urgency of the project, they arranged a chartered freighter flight to ensure a timely delivery.

Despite the logistical challenges, Envio successfully met the deadline, demonstrating their ability to handle time-sensitive and complex projects **precisely and efficiently**. The successful result also highlights their commitment to delivering exceptional service under demanding circumstances.

## 15TH CELEBRATION & CONFERENCE

Our first ever gathering was held in London and 15 years later we are back ... with a bang! Book now so your place is secured.

Our event will be held from 26-28 October 2025 at the Park Plaza Victoria Hotel. Perfectly located in the centre of London with Westminster, Buckingham Palace, top musicals and great restaurants all just a 10-minute walk away.

### LONDON HIGHLIGHTS COACH TOUR

London boasts a rich history stretching back over 2,000 years, making it one of the most exciting cities on earth. Join this optional tour and you'll see the major sites, a few hidden treasures with time for photos at your favourites. Our expert guides will bring the city's history to life, sharing stories and fascinating insights along the way.

### WELCOME GAMES & DINNER NIGHT

Dive into an evening of entertainment with Roulette, Blackjack and Wheel of Fortune, Shuffleboard tables, a Magic Mirror, and two incredibly skilled character artists. Plus, an open bar and a delicious 3-course plated dinner — no queuing in line at a buffet!

### DINNER AT THE SHAKESPEARE GLOBE

Hop on the coach to enjoy the dazzling London lights on our way to indulge in a fantastic feast at the Underglobe located at the iconic Shakespeare's Globe, on the banks of the Thames. Get ready for a very special evening!

### FAREWELL EVENING AT AN ENGLISH PUB

We're wrapping up our event with a night out at The Hawk's Nest, a fab London hangout in the heart of Shepherd's Bush. Indulge in delicious sourdough pizzas, fresh baked donuts alongside an array of cocktails, wine, beer and spirits. The highlight of the evening will be a lively pub quiz.

Registration Fee £850. **Book your place today!**

# Seamless Project Cargo Solutions with CFA Logistics Agency

**We are pleased to introduce CFA Logistics Agency as new members in Tanzania and Kenya.**

The company hold TAFFA certification with headquarters in Arusha and offices in Dar es Salaam and Mombasa. They are well-organised and knowledgeable in managing project cargo operations with an excellent understanding of international logistics and clear and smooth coordination.

Director, **Godson Meisilal Laizer** comments; “We are enthusiastic about contributing to the network and building long-term, mutually beneficial partnerships. Through PCN, we are looking to connect with reliable agents who

share our values of efficiency, transparency, and excellence in logistics services.”

*“CFA Logistics Agency is a dedicated and forward-thinking company based in East Africa that provides a comprehensive suite of top-notch forwarding, logistics and clearing services, catering to the diverse needs of our clients across various sectors.*

*With substantial operating capacity, a team of highly professional experts, and over 10 years of successful experience, we offer seamless transportation and logistics solutions. Throughout our journey, we have demonstrated innovation, excellence, and commitment to our partners, clients, and stakeholders.*

*CFA Logistics Agency specializes in handling complex cargo for medium to large-scale projects. This involves efficiently managing the transportation, logistics, planning, and coordination required for the successful movement of project, breakbulk and OOG cargo by sea, land or air. Additional activities include customs clearance & documentation processes, regulation compliance, permits & licenses, risk management, route surveys, and insurance.”*

*“We work closely to carefully understand each project’s specific requirements, timelines, destinations, and challenges, enabling us to create **comprehensive and reliable logistics plans** tailored to unique needs.”*

Some recent projects successfully undertaken by CFA Logistics Agency are featured below.

- Import, clearance and delivery of **wheel loaders** from China to the mining fields of the Geita Region in Tanzania. CFA Logistics expertly handled the import, ensuring smooth clearance at Mombasa Port and seamless border transitions. With precision and efficiency, they delivered the cargo safely to its destination keeping the client’s operations on track.
- Import, clearance and delivery of **heavy mining machinery**. CFA Logistics expertly managed the handling of the cargo from the port to the site in Mpanda, Tanzania. With seamless coordination and real-time tracking, they ensured a safe and timely delivery and kept their client’s important operations running smoothly.
- Import, clearance and delivery of an **excavator** to the heart of Mpanda, Katavi in Tanzania. CFA Logistics ensured smooth operations in handling the high-performance excavator. Navigating port formalities and border procedures with expertise, they carefully coordinated the journey, delivering it safely to their client, ready for action in the mining fields.
- Export and clearance of **construction materials**. CFA Logistics successfully managed the handling of roofing sheets, ensuring smooth handling from start to finish. Taking care of every detail, the cargo was processed for export before efficient transport, customs clearance, and timely delivery.

# Logistics Innovation at SEACON Korea

**We** are pleased to announce SEACON as new members in South Korea. Based in Seoul, they were established in 2012 and hold KIFFA, FMC and IATA certification. SEACON are breakbulk specialists, offering customised and innovative solutions.

**Director, Jemyeong Lee** introduces the company; “SEACON is a total logistics company specialised in project cargo and breakbulk. With passion and reliability, we strive to achieve logistics innovation that makes the world smaller. Our **professional and comprehensive services** provide seamless, one-stop solutions across all areas of logistics, shipping, and transportation.”

*“We have **diverse project cargo experience** including wind & hydroelectric power, plant constructions & relocations, EPC, vessels & boats, and many other heavy machinery, equipment & materials.*

*Our complete project logistics solutions cover careful planning & preparation, cargo, route, environment & technical surveys, sea, inland & air transportation, multimodal transport, loading & unloading, final deliveries, and customs clearance”*

Some recent project handled by SEACON are featured below.

- A **research vessel** (1,434cbm / 150mt) from Mokpo in South Korea to Suva in Fiji from water to water. The job scope from SEACON included door to water at POD, customs clearance at both ends, surveys at discharging port, delivery at POD and inspection of vessel condition, lashing materials inspection, constructed a trestle & supplied dunnage material, discharging & loading, stevedoring supervision, tests for vessel engine & other utilities, and ocean transportation.
- An EPC project with cargo including a **compressor, turbine, heat exchanger** and others. The project was split over 3 shipments arriving at Busan from Kobe (1,247cbm / 342mt / heaviest at 75mt), Hiroshima (1,779cbm / 538mt / heaviest at 176mt) and Dalian (2,528cbm / 400mt / heaviest at 146mt). The scope of work from SEACON included ocean transportation, port & road survey at discharging port, lashing materials inspection, discharging & loading, stevedoring supervision, and port to door transport.
- A **catamaran ferry vessel** (2,186cbm / 110mt) shipped from Gaolan in China to Mokpo from water to water. The project scope from SEACON included ocean transportation, customs clearance at both ends, surveys at discharging port, lashing materials inspection, discharging & loading, and stevedoring supervision.
- **Press machinery** for the automotive industry shipped from Masan to New Orleans, USA. The entire project totalled 1,067cbm / 1,019mt with the heaviest units at 154mt and 118mt.

# Sparber Group are Architects of Industrial Project Logistics

**We are pleased to welcome Sparber Group as new members in Spain and Chile. The company are experts in integrated logistics for industrial projects, breakbulk and chartering.**

Founded in Bilbao in **1981**, where they maintain their headquarters, Sparber Group also have offices and warehouses in Barcelona, Madrid, Valencia, Gijón, and Irún as well as Santiago de Chile. They hold many industry certifications including FIATA, IATA, ATEIA, FETEIA, and ISO 9001, 14001, & 45001.

They come recommended by several PCN members as a reliable, professional, efficient, responsive, well-qualified partner who are highly experienced in managing complex project logistics with very strong teams, full of operational knowledge and committed to attention to detail.

General Manager, **Michael J. Voss** will be attending our exciting **PCN 2025 Annual Summit** taking place in **London** on **26-28 October** and we are delighted to be welcoming Sparber Group at the event! We can't wait to celebrate our **15th Anniversary** with all our delegates at a truly special conference.

Meeting face-to-face and building closer relationships (and friendships) is a **valuable tool** which shouldn't be underestimated. Please **contact us** if you are interested in joining us in London!

*"Sparber is a group of companies that specialises in industrial projects with **45 years' experience** in the field. We have wide experience and expertise as well as a proven track record of working in various industrial sectors, highlighted by, among other things, the successful movement of special and heavy & oversized loads."*

*"As 'architects and **designers of transport**', Sparber Group is characterised by personalised attention, efficiency, reliability, speed, trust and commitment. We deal in all areas of logistics - sea, land, & air transport, sea & air chartering, warehousing, customs clearance, insurance, and all related activities. Our well-known expertise is in the integrated logistics of **industrial projects, breakbulk and chartering**."*

*In addition to the above, our project management and logistics services also include planning, feasibility & route studies, stowage & lashing, cranes & lifting equipment, heavy lift supervision, and tracking."*

*"With global vision and local excellence, Sparber Group provide **project logistics solutions without borders**."*

Sparber's project activity covers a wide range of sectors including renewable energy, oil & gas, construction equipment, steel industry, mining, power & energy, automotive, water plants, rail industry & locomotives, manufacturing plants, marine & vessels, chemicals, and many other special cargo.

Please **click here** to download Sparber's project cargo presentation featuring an **impressive array of successful projects**. You can also **click here** to view some recent projects on their website.

# Our New Meeting Manager Is LIVE – Get Ready to Connect!

**We're thrilled to announce the launch of our brand-new Meeting Manager, designed by you, for you! Built directly from your feedback, this sleek new system is smarter, faster, and easy to use.**

All registered and paid delegates will receive their login details via email. With early access to our brand-new system, they'll be first in line to schedule those crucial 1-2-1 meetings before diaries fill up!

## Why you'll love it:

- Effortless navigation — no learning curve!
- We'll send your login details — no setup required
- Stay flexible with a live, always-updated system on your mobile device
- Print-friendly schedules for easy reference

## Still Need to Book? Don't Miss Out!

Please **click here** to secure your place now, and remember, you can change the delegate name at no cost until 10 October 2025.

## Limited Hotel Rooms at Special PCN Rates

The **Park Plaza Victoria** is offering exclusive discounts for PCN Members, but availability is tight. Book early to avoid disappointment.

## Boost Your Visibility with Sponsorship

Make your mark at our 15th Anniversary Celebration! We've tailored sponsorship

packages to fit every budget, it's the perfect way to stand out.

## Exploring London? We've Got You Covered!

New to the city? Our **London Guide** includes a Riverside Royal Route Walking Tour that starts right outside our venue. Printed copies will be available at our event to help you make the most of your stay. We want to make your trip easy and, most of all, fun!

We can't wait to welcome you in London.
