2020

FREJA TRANSPORT & LOGISTICS

GLOGOS LTD

CARGO EXPERTS LTD

SCANDINAVIAN EXPRESS

CENTAURO

TERA PROJECTS & SHIPPING Sdn Bhd

C.H. ROBINSON

MEGALIFT Sdn Bhd

Every year we process an Evidence Audit as it is essential that only companies who have the capacity and experience to handle full scale project cargo and heavy lift shipments remain in PCN. During the Evidence Audit, we approach all Members who have not provided submissions to our Network News section and they are required to email us photographs and a description of a recent project/heavy lift shipment that their company has handled.

This audit ensures that only companies active in our specialist sector remain in PCN. For confidentiality reasons the submissions do not appear on our website or Digital Newsletter unless requested. The Evidence Audit is for PCN Head Office records only.

We ask all Members to take photographs and keep records of a suitable shipment so that they can be provided when asked so please distribute this information around your office.

Any companies who do not comply are monitored and any unsuitable companies are identified and replaced, whilst taking into account the current political and economic situations of certain countries.

Note: Since the Evidence Audit launched, the PCN Head Office identified and replaced 31 companies who either failed our Evidence Audit or did not commit to PCN enough to attend our annual networking event.

If you have any questions, please email: rachel@projectcargonetwork.com

In 2019, 92% of Members passed our Evidence Audit
