

The World's Top Project Cargo Specialists

Project Cargo Network (PCN) is an organisation established to provide a networking platform for the world's top project cargo specialists.

Together with their fellow PCN overseas offices, **Megalift Sdn Bhd** can handle the transportation of oversized and heavy items or shipments that consist of complex components that must be disassembled, shipped and then re-assembled.

Megalift Sdn Bhd can offer project cargo management for engineering, procurement and construction companies servicing energy, mining, chemical, petrochemical, pipeline, infrastructure and other sectors.

These highly specialist shipments require individual transport planning from origin to destination.

The current world trend for green energy and the substantial investment in clean

energy technology is providing a rapid increase in business opportunities for project cargo specialists who have the required capabilities in the supply chain management of oversize plant and equipment, i.e. wind turbines.

Because most PCN Member offices are managed by privately-owned independent companies, they can focus 100% on providing a personal service that is tailored to client's needs.

Some multinational transport companies are restricted by inflexible policies and procedures.

Megalift Sdn Bhd and their fellow PCN Members can accommodate specific requests and make immediate decisions and recommendations on each individual shipment.

By working in close co-operation with their fellow PCN Members, **Megalift Sdn Bhd** provide first class local service on a truly international scale.

Megalift Sdn Bhd + Overseas Partners

Megalift Sdn Bhd

offer clients the personal local service and flexibility that only a privately-owned forwarder can, providing comprehensive logistics solutions through local people who have an in-depth understanding of their market.

Question: why use Megalift Sdn Bhd?

Answer: **S.H.I.P.**

Speed, Handling,
Information, &
Purchasing Power

Speed

Megalift Sdn Bhd has a staff of dedicated professionals that understand the practical, operational and engineering aspects of heavy transport, heavy lift and project cargo and manage the accurate and timely submission of client's official documentation.

Handling

Megalift Sdn Bhd understand that part of their responsibility is to fully support client's through all procedures. If a problem does arise, **Megalift Sdn Bhd** can draw upon their extensive experience in order to obtain a favourable solution.

Information

Due to the changing times, many countries have adopted more comprehensive procedures with regards to regulating commodities that are accepted at their ports, including how they must be shipped and what sort of documentation must accompany them. **Megalift Sdn Bhd** ensures that clients are kept up to date with requirements and procedures in order to avoid timely and potentially costly mistakes.

Purchasing Power

Megalift Sdn Bhd understands that cost is an important factor for their clients. Due to established relations with carriers, **Megalift Sdn Bhd** are able to offer exceptionally competitive rates to many destinations across the globe.
